

Dnyanesh Khairnar

Software Developer

As a recent completed PG-DAC, I am excited to begin my career in development and contribute to the ever-evolving field of technology. During my studies, I gained a strong foundation in programming languages such as Java, C#, and C++ as well as experience working with web development technologies like HTML, CSS, and JavaScript, React, Spring Boot, MVC.

Achievements/Tasks

- Build a E-Commerce website which is E-Plumbing-Store on multi-tier architecture which is loosely coupled highly cohesive consist of 3 layers.
- For the presentation layer, I use React, a popular front-end framework that provides a fast and efficient way to build user interfaces.
- For the business layer, I use Spring Boot, a popular Java-based framework that provides a quick and easy way to build enterprise-level applications.
- For the data access layer, I use MySQL, a popular open-source relational database management system.

C++

C#

PERSONAL PROJECTS

E-Plumbing-Store (02/2023 - 03/2023)

- The Online Buying of Plumbing Materials and Spare Parts application is developed for the Resellers to buy products in large quantities. An e-plumbing store is an online Wholesale store that specializes in selling plumbing products and supplies. These products can include things like pipes, fittings, valves, faucets, toilets, sinks, and other related items. Resellers can browse and purchase these products online, and have them shipped directly to their job site.

Adjustable Structure For Reciprocating Water Pump (01/2019 - 06/2019)

- In remote areas, neither electricity nor diesel are easily available. In such places, pedal powered pump can serve the purpose. Now a days only single type of bicycle can use to operate the pump. Because the structure is rigid & non adjustable but we can make it adjustable in horizontal direction which allows to accommodate various types of bicycles on the structure & operate it easily. Due to this type of adjustable structured pump operator can allow to operate the pumping operation by his own.
